

We would like to take this opportunity to assure you that we are taking every possible precaution to make sure that we are keeping our clients, agents, and inspectors safe!

We understand that these are trying times and information is changing daily and sometimes even hourly. We are monitoring the CDC guidelines as these changes occur and are complying with their requirements.

In addition to taking the COVID-19 course through InterNACHI we are following the COVID-19 Inspector Safe Practices as determined by the updated CDC requirements which are as follows:

- Maintaining the safe 6 foot distancing guidelines
- Washing hands throughout the inspection and after each home area is completed for 20-30 seconds with the soap we brought to the inspection.
- We are cognizant of any surfaces that we touch during the inspection, and are sanitizing those surfaces following the inspection-prior to leaving the property.

Please understand that we are taking all the safety precautions necessary to provide a safe environment. However, we as Home Inspectors are not alarmist and we will not be alarmists with COVID-19 either. We are providing physical distancing but we will do our part to still provide a social experience during your inspection while giving you the product you deserve.
